

Distillerie Tessendier hosts in its cellars, hundreds of different casks of Cognac that are only used in the most prestigious of our blends. The Cognac Park Single Cask Program consists of a selection of individual casks from these stocks that are dedicated to, and reserved for, our most important clients. Each Cognac is hand-selected by our Cognac Cellar Masters, Jérôme and Lilian Tessendier. Cognac Park Single Cask bottlings are composed of tiny, unique lots of Cognac from a single vintage and cru, non-chill-filtered with no additives. Each cask slept quietly in one of the Tessendier family's famous cellars, Chai n° 4, 5 and 6.

The customized label will include the name of the person who selected the cask, as well as the client entity that will receive it. Additionally, it will include the cask number and the total number of bottles produced.

Each cask is unique. When sold, it will never be available again.

Those who choose to purchase an entire Single Cask may be eligible to receive the empty 400L cask gratis. Applicable laws vary by state.

Sample tastings are available by appointment with a Back Bar Project representative.
