BACK BAR PROJECT

EL JOLGORIO

2023 SPECIAL RELEASES
AVAILABLE IN U.S.

Bottled in black glass and released only once per year, these highly anticipated entries will feature seven limited-release mezcals of various agave varieties. This series was created by Casa Cortés in 2017. At that time, due to the growing scarcity of wild agave in Oaxaca, the Cortés family decided to curate an annual release of the rarest mezcals produced by their network of partner mezcaleros. Consisting of tiny batches, these mezcals are extremely prized and often hard to find in the market.
