RUM CREAM

ABOUT RUM-BAR RUM CREAM

Rum-Bar Rum Cream is made using real cream, blended with our flagship Rum-Bar Rum and select spices, to give you a rich, velvety, and delicious rum cream. All of our rums are distilled in a 100% copper pot still specially designed for Worthy Park by the historic Forsyths company in Scotland. Enjoy chilled on the rocks, in your coffee or even over your favorite dessert.

From cane field to bottle, Rum-Bar Rum Cream is produced entirely on the historic Worthy Park estate in St. Catherine Parish, in the geographical center of Jamaica. The estate has been producing sugar and molasses unabated since 1720, and this very same molasses is used in distillation of all of our rum. The Rum-Bar name celebrates the cultural heritage of the rum bars that are spread across the island.

ABOUT RUM-BAR

The Rum-Bar brand pays tribute to the traditional rum bars that are spread across the communities on the island of Jamaica. These tiny watering holes dotting the roadsides provide relief from the sun and a gathering place for locals. Most rum bars keep it simple, serving up white overproof rum with “chasers” of fresh juice or sodas. Rum-Bar rums offer big flavors of Jamaican rum, striking a balance between Jamaican “funk” resulting from the use of pot-stills and fruit-forward flavors that translate into amazing cocktails. From cane field to bottle, Rum-Bar is 100% pot-still rum and one of two brands wholly owned by the historic Worthy Park Estate, located in St. Catherine Parish, Jamaica. Sitting 1,200 feet above sea level, the estate encompasses more than 9,000 acres of land. 100% of the cane and molasses used in our rums is produced either on our own estate or on one of three nearby properties leased for cane cultivation by Worthy Park: a claim few other rums can make. The aromas and flavors in our rums truly reflect the terroir at Worthy Park Estate.
